Subject: RE: Continuation of Slide run through for DD briefing (5/26) on PFAS considerations for PQZ and Broflanilide

The link in the yesterdays meeting invite is the link to the current slides. It's the same working version we have all been using. Debra and I met with Rosanna earlier today and did some initial clean up of slides, using the "hide" function to mark the slides that can be back-pocket slides. We haven't moved anything around yet as we wanted to see how it flows with the changes before we move the slides around too much.

Our thoughts were to add slides in the risk management section to include conclusions on if we will proceed with the current new uses in house and any uncertainties we have with the data supporting the new uses. And then have a more broad discussion of data needs in the future to address uncertainties, drawing from Frank's comments in the chat from the meeting yesterday.

Debra and I are meeting again this afternoon at 1:00.

Elizabeth,

ERB2 is planning to meet today at 12:30 pm to review. Can you confirm that most recent version of the slide deck?

Rochelle F. H. Bohaty, PhD, Acting Branch Chief
Environmental Risk Branch 2
Environmental Fate and Effects Division
Office of Pesticide Programs
U.S. Environmental Protection Agency

Hi Rosanna,
We are working with current slide deck. Thanks. Faruque

Hi Faruque –

Thanks for your note and efforts on this. There have been some duplicative efforts on this, where the current slide deck has had a lot of changes.

I think they plan to share the slides soon, so perhaps see how the current slides look, before making changes?

Thanks,
-rosanna

Hi Beth and Debra,
This morning some of us (Steve and I from EFED and Anwar, Tom and Yung from HED) met with Jeff Dawson to discuss how to streamline general topics and chemical specific issues. Just to give you heads up that we will be revising some of the slides and plan to share with you early tomorrow.
Thanks
Faruque
